## LCD PROJECTOR

Spacious, well –lit and well –ventilated classrooms and seminar hall [with ICT] with comfortable seating arrangement are available for smooth conduct of UG and PG theory sessions. Besides the conventional teaching aids, classrooms are also equipped with state-of-the-art audiovisual technology viz. digital smart board, LCD Projectors, thus stepping up the teaching-learning experience to next higher level. Well –thought positioning of aisle in the classroom ensure proper interaction between teacher and students

## INDUSTRIAL TRAINING – 07/07/17 to 27/07/17.

Industrial training, where a student undertakes a period of training at an organization usually during a semester break, acts as an important part in preparing the student for a professional career. With the actively involved preparation, the student learns about the industrial demands, skill set and work ethics.

Every year students experience industrial training as per the syllabus prescribed in JNTUA and gain knowledge of various departments like Formulation and research department (FR&D) i.e., Manufacturing of Tablets, capsules and injection preparations etc., Quality Assurance, Quality control, Clinical research, Drug regulatory affairs, Hospital Pharmacy etc. as such III year B.Pharmacy students have visited KRISH CARE FORMULATIONS in Hyderabad, Telangana-5000 72, India and received hands on experience about industry affairs.

Date: 21.07.2017

**TO WHOM SO EVER IT MAY CONCERN**

This is to certify that **Mr. PADMANABHAN REDDY (14ERIR0021)** is a bonafide student of **Dr. K.V. SUBBA REDDY INSTITUTE OF PHARMACY, KURNOOL**. He has undergone industrial training in our organization from **07.07.2017 to 21.07.2017**, as a part of partial fulfillment of his B. Pharmacy course.

During the training, he had interacted with Quality control, Quality Assurance & Production departments and acquired basic knowledge in these areas.

During this aforesaid period, we found his hard working, sincere and learning attitude.

## HANDS – ON LEARNING

B. Pharmacy, Pharm.D & Pharm.D (PB) and M. Pharmacy students gain knowledge in theory by taking part in the pragmatic learning in various laboratories located within the institute. Faculty has designed various experiments according to the syllabus assigned by the JNTUA. Students gain practical awareness through live activities and handling the instruments such as Pharmaceutical Analysis instruments operation UV – Visible Spectrophotometry, HPLC, Pharmacology laboratory experiments with animals, and Pharmaceutical Chemistry etc.,

II/III Pharm.D students learning about dissolution in the Pharmaceutics Lab.

I/II B. Pharmacy student learning about HPLC instrumentation at Pharmaceutical Analysis Laboratory.

## ASSIGNMENTS

Assignments are the part of the internal examination evaluation process, in which would be immense value as additional learning instruments. Many types of assignments can be given to students of all such as essays, literature reviews, critical reviews, reflective journals, annotated bibliographies and case studies, depends upon the need and learning situations. It implies a task for students to accomplish the aim of learning particular contents, concepts or relationships etc., in this text, learning assignments involve students' independent information seeking and use of a wide range of information resources which are available for them. So every semester/year students are assigned with 2 or 3 topics per each subject regarding to their syllabus and asked to gather more relevant information. Allotment of marks to students is given according to their task completion. Through this student are enriched with knowledge regarding of topic, proof reading of and presentation techniques.

KURNOOL-518218 (A.P)

①  
**Sterilization:**

\* Article, surface, or medium is free of all living microorganisms either in the vegetative or in the spore state.

**Disinfection:**

- \* Destruction of microorganisms, especially potential pathogens, on the surfaces of inanimate objects or in the environment
- \* Reduce the microbial population, not bacterial endospores on inanimate surfaces or in organic materials

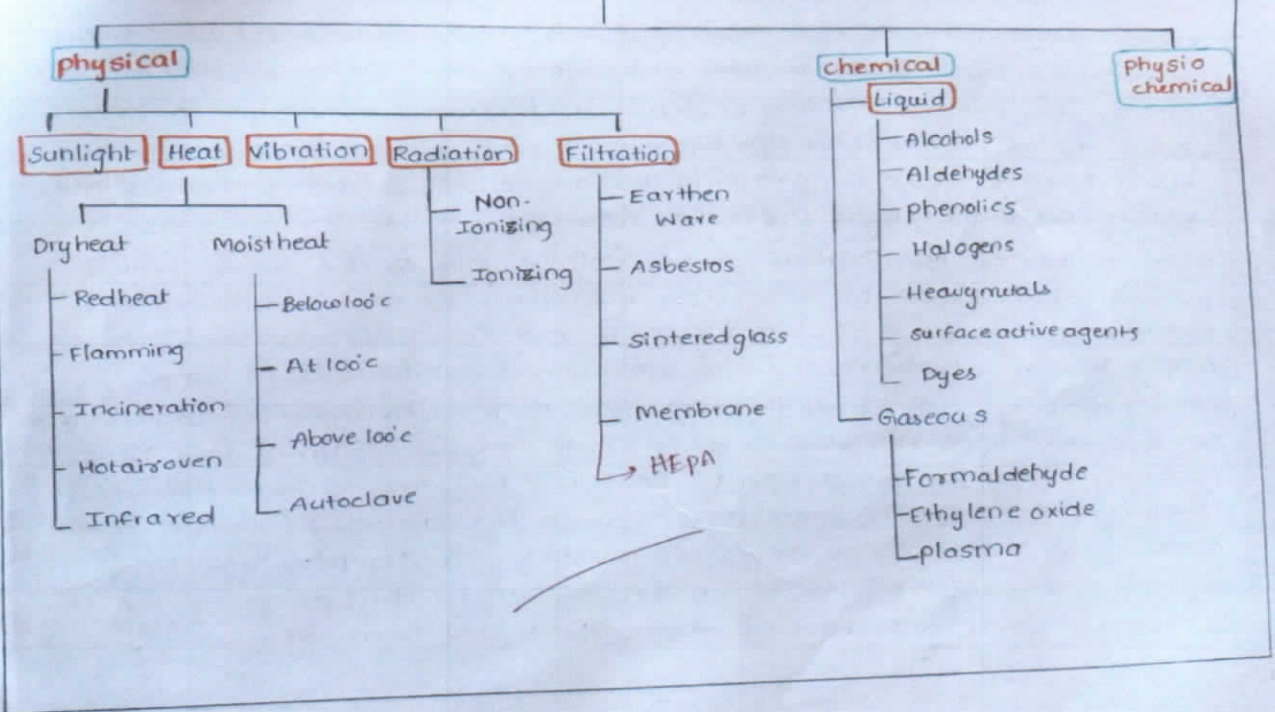

**Antisepsis:**

- \* Destruction or inhibition of microorganisms on living tissues by chemicals (non-toxic and non-irritating)
- \* chemical agents - antiseptics

**Germicide / Microbicide**

- \* chemical agent that kills pathogenic microorganisms

②  
**Methods of sterilization / disinfection**

## Dry Heat Sterilization

3

Dry heat sterilization is of 4 types

- 1) Hot air oven
- 2) Red hot sterilization
- 3) Flaming
- 4) Incineration

### Red hot sterilization:

Sterilization by holding them in Bunsen flame till they become red hot. It is used for bacteriological loops, straight wires, tips of forceps and spatula.

### Flaming:

This is a method of passing particle over a flame, but not heating it to redness. Use - scalpels, mouth of test tubes, flask, glass slide and coverslips.

### Incineration:

It is a waste treatment process that involves of organic substances contained in waste materials used to sterilize medical and other biohazardous waste before it is discarded with non-hazardous waste. This method also burns any organism to ash.

## Moist Heat Sterilization

4

\* Below 100°C

\* It has also two types

- 1) Pasteurization
- 2) Inspissation

### \* Pasteurization:

\* Its purpose is to reduce the bacterial population of a liquid such as milk and destroy organism that may cause the spoilage. Spores are not affected by this method.

### Inspissation:

\* Heating at 80-85°C for half an hour daily on three consecutive days. Serum or egg media are sterilized by using this method of moist heat sterilization.

## INNOVATIVE MODEL MAKING

Students are guided to prepare scientific models through Pharma Expo. The main aim of conducting Pharma Expo is to integrate knowledge within a course, a major, or across an entire Program of study to associate the concepts. This enables students to understand and remember the relationship among various concepts, structures or species. Model making competition conducted by S.Sara Sireesha in 2017.

Pharm.D II Year students participated & presented a model on formation of child

## PROJECT BASED LEARNING:

Project based learning is a teaching method where students gain knowledge and skill by working for an extended period of time to investigate and respond to an authentic, engaging and complex questions, problems or challenges. It not only provides opportunities for students to collaborate with or drive their own learning, but also teaches those skills such as problem solving and helps to develop additional skills integral to their future such as critical thinking and time management. So every year IV B. Pharmacy, V year Pharm.D and II year M. Pharmacy students are allotted with a project under the supervision/guidance of faculty to be completed within an academic year. Marks are allotted to projects according to their performance, project results, presentation and viva-voce. Research and review articles of their projects are published by students in various national and international journals.

**11. Objective & Vision**

DELNET envisions the globalizing of libraries in the context of strategic planning, development, and growth. It is a network of libraries that will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**12. DELNET's Social Mission Statement**

DELNET's social mission is to provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

Single membership	Rs. 2,000/- (2,000/-)	Rs. 2,750/-
Double membership	Rs. 3,000/- (3,000/-)	Rs. 3,750/-
Life	Rs. 50,000/- (50,000/-)	Rs. 50,000/-

**13. PUBLIC RELATIONS**

The proceedings of the National Conference on Knowledge Library and Information Networking (NCKLIN) are published every year under IJNL. The website can provide an effective medium for public relations.

**14. DELNET's Structure**

The DELNET structure is as follows: National Conference on Knowledge Library and Information Networking (NCKLIN) is the apex body. It is followed by the National Library and Information Networking (NLIN). The NLIN is followed by the National Library and Information Networking (NLIN).

**15. Other Publications**

Regular publications based on seminars and conferences and publications periodically.

**16. MEMBERSHIP**

DELNET's membership is as follows:

**1. Full Membership**

DELNET's full membership is as follows: Rs. 2,000/- (2,000/-) for single membership, Rs. 3,000/- (3,000/-) for double membership, and Rs. 50,000/- (50,000/-) for life membership.

**2. Special Member**

DELNET's special member is as follows: Rs. 2,000/- (2,000/-) for single membership, Rs. 3,000/- (3,000/-) for double membership, and Rs. 50,000/- (50,000/-) for life membership.

**DELNET'S ACTIVITIES**

**1. Networking of NLI's**

DELNET's networking of NLI's is as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**2. National Bibliographic Database**

DELNET's national bibliographic database is as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**3. Knowledge Centre**

DELNET's knowledge centre is as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**DELNET'S MEMBERSHIP**

**1. Membership Structure**

DELNET's membership structure is as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**2. Who Can Join**

DELNET's who can join is as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**3. Membership Fees**

DELNET's membership fees are as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**17. Membership Rates**

India and other SAARC Countries:

Single membership	Rs. 2,000/-
Double membership	Rs. 3,000/-
Life membership	Rs. 50,000/-

Non-SAARC Countries:

Single membership	Rs. 2,500/-
Double membership	Rs. 3,500/-
Life membership	Rs. 50,000/-

**DELNET'S MEMBERSHIP**

**1. Membership Structure**

DELNET's membership structure is as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**2. Who Can Join**

DELNET's who can join is as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

**3. Membership Fees**

DELNET's membership fees are as follows: It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India. It will provide a platform for the growth of libraries in India.

## Group Discussion Session

AY: 2017-2018

Group Discussions help to check students 'interactive skills and how effective they are in communicating with people. The GD is to check how one behave, participate and contribute in a group, how much importance do you give to the group objective as well as your own, how well do you listen to viewpoints of others and how open-minded are you in accepting views contrary to your own.

The aspects which make up a GD are verbal communication, non-verbal behavior, and conformation to norms, decision-making ability and cooperation. The following skills are required in GD

- ◆ Communication Skills
- ◆ Interpersonal Skills
- ◆ Leadership Skills
- ◆ Motivational Skills
- ◆ Team Building Skills
- ◆ Tolerance
- ◆ Clarity over Ambiguity
- ◆ Divergent Thinking
- ◆ Listening skills
- ◆ Presentation Skills
- ◆ Analytical / Logical skills

KURNOOL-518218 (A.P)

**Topic:**

**Why do doctors in public hospital prescribe medicines that are not at all available in hospital pharmacy :**

The growing non-medical use of prescription drugs is a global health concern. Such usage can be defined as the taking of prescription drugs, whether obtained by prescription or otherwise, other than in the manner or for the reasons or time period prescribed, or by a person for whom the drug was not prescribed.

The real scale of the problem is unknown, due partly to lack of data on the non-medical use of prescription drugs, and partly to the existence of many gaps in the monitoring of their legal use for medical purposes as prescribed by health-care professionals (which creates opportunities for the diversion of these drugs to people to whom they were not prescribed). Most studies on and monitoring instruments for substance abuses pertain to the use of illegal drugs, or alcohol and tobacco. However, the non-medical use of prescription drugs is a unique category of substance use in number of ways and requires attention at different levels.

Opp: Dupadu R.S. N.H.-44,  
KURNOOL-518218 (A.P)

When patients don't take their medications as prescribed—is unfortunately fairly common, with research showing that patients don't take their medications as prescribed about half the time. The phenomenon has added consequences for patients with chronic disease. When this is the case, it is important for physicians and other health professionals to understand why patients don't take their medications. This will help teams identify and improve patients' adherence to their medications.

Batch of 17 B.Pharm students attended the session conducted on 24/03/2017

## Debate

**AY: 2017-2018**

Debate is a process that involves formal discourse on a particular topic, often including a moderator and audience. In a debate, arguments are put forward for common opposing viewpoints. Debates have historically occurred in public meetings, academic institutions, debate halls, coffee houses, competitions, and legislative assemblies. Debates has also been conducted for educational and recreational purposes, usually associated with educational establishments and debating societies.

1. Develop excellent oral and written communication skills.
2. Develop excellent critical thinking skills.
3. Develop effective tools for research, organization and presentation.
4. Develop strategies to overcome fears of public speaking.
5. Discover the confidence and desire to participate in all academic classes.

### Benefits :

- Confidence - Belief in themselves and their abilities, and the desire to participate in all classes.
- Curiosity - The passion of discovery through effective tools for research, organization and presentation.
- Critical Thinking - How to explore the world through the lens of an inquisitive mind.
- Communication – Oral & written skills and strategies for lively yet respectful discussions & disagreements.
- Control – Eliminate the fears of public speaking.
- Creativity – The desire to explore, create and invent.
- Camaraderie – Meet like-minded peers at tournaments and build healthy bonds of competition.
- Leadership – Self-motivation and the ability to delegate assignments and manage peers.

Debate teaches individuals the importance of being prepared to listen. First, it trains people in the mental preparation of listening – having a listening plan. During a debate you listen for specific things, points you want to answer, weakness in logic, supporting material and key points.

### Summary

Using debates in the classroom provides students the opportunity to explore real-world topics and issues. Debates also engage students through self reflection and encourage them to learn from their peers.

**Topic:**

**Are private schools better than government schools??**

Private schools are definitely better than government schools as they would provide better infrastructure, better teacher to student ratio, have a clean & hygienic facility, provide better environment for students with options of personality development and extracurricular activities.

Government schools may not be able to offer all these features but for those who cannot afford private schools, getting their children in government schools is better than no schooling at all.

The major difference between a private school and a government school comes in the quality of the education imparted at these institutions. Apart from the basic curriculum, emphasis is also laid down to educate them about life skills including punctuality, hygiene, discipline, etc. in private schools.

### Think Pair Share Session

AY: 2017-18

Think-Pair-Share (TPS) is a cooperative learning activity that can work in varied size classrooms and in any subject. Instructors pose a question, students first THINK to themselves prior to being instructed to discuss their response with a person sitting near them (PAIR).

In other words, Think-pair-share (TPS) is a collaborative learning strategy where students work together to solve a problem or answer a question about an assigned reading. This strategy requires students to (1) think individually about a topic or answer to a question; and (2) share ideas with classmates. Discussing with a partner maximizes participation, focuses attention and engages students in comprehending the reading material.

- It helps students to think individually about a topic or answer to a question.
- It teaches students to share ideas with classmates and builds oral communication skills.
- It helps focus attention and engage students in comprehending the reading material.

**Fig.1.6: Students during a Think Pair Share Session**

Batch of 18 Pharmacy students attended the session conducted on 5/4/2018.

## VIRTUAL LABS

**Virtual labs** are used to provide remote access to stimulation based labs in various disciplines of sciences and pharmacy departments. By using these virtual labs to enthuse students to conduct experiments by arousing their curiosity. This would help them in learning basic & advanced concepts through remote experimentation. This would help them to provide complete learning management system around the virtual labs where the students/ teachers can avail the various tools for learning, including additional web resources, video lectures, animated demonstrations and self examinations.
