Institutional preparedness for NEP

1. Multidisciplinary/interdisciplinary:

The Vision of National Education Policy, to provide high quality education to develop human resources in our nation as global citizens, is well taken by DRKVS RIP.

A discussion among the faculty members were initiated on the key principles of NEP such as diversity for all curriculum and pedagogy with technological innovations in teaching and learning, encouraging logical decision making and innovation, critical thinking and creativity. In view of the NEP, DRKVS RIP has initiated new interdisciplinary clubs integrating different specializations in addition to the existing MSME Host Institute Business Incubator (HI/BI) centre.

Academic courses like B.Pharm, M.Pharm and Pharm.D, D. Pharm are composed of multidisciplinary fields of Physical, Biological, Pharmacological sciences. We would like to encourage the students for further involvement of projects in interdisciplinary approach in their courses

The purpose of DRKVS RIP, according to NEP standards, is to be accredited by the National Assessment Accreditation Board (NAAC) with a satisfactory grade and to strive for excellence in pharmacy education. In addition, the college's curriculum can contain multidisciplinary programmes. Our Institution, as part of its commitment to holistic and multidisciplinary education, has conducted a course on Human values and Professional ethics and yoga sessions for all students on campus. Additionally, our students participate in community outreach initiatives such as organizing health awareness programs, on various diseases like Swine flu, AIDS, Breast Cancer, COVID, GERD Rational use of medicines etc. were conducted in neighborhood villages.

	<p>Leadership and effective governance and Leadership for Higher Education Institution:</p> <p>A) DRKVSP is a self-finance private HEI affiliated to JNTUA, Anantapur it aims to become independent self-governing Institution pursuing innovation and excellence through accreditations and recognitions.</p> <p>B) DRKVSP has a strategic Institutional development plan which is in alignment with the vision of NEP.</p>
2. Academic bank of credits (ABC):	Academic bank credits are a key component of the NEP-2020 that academic institutions must implement.
3. Skill development:	The extension of add on programs along with curriculum is critical for hastening skill development. DRKVSP conducted personality development, interview skills for B. Pharm, PharmD, and M. Pharm students, as well as life-skills. DRKVSP formed National Entrepreneurship Network (NEN) community conducting various activities dedicated to foster entrepreneurship in students.
4. Appropriate integration of Indian Knowledgesystem (teaching in Indian Language, culture, using the course):	<p>The institute promotion of Indian arts and culture is beneficial not only to the country but also to individuals.</p> <p>Because pharmacy is a professional course, using English as a medium of communication and conducting course work in all pharmacy programs is required. The institution, on the other hand, recalls significant dates and hosts activities in regional languages to instil a sense of regional pride. Republic Day and Independence Day are two examples of celebrations where students are addressed in their native languages. World Pharmacist' Day and Teacher's Day are two of the most important days of the year.</p> <p>Women's Day is prominent day that are commemorated with cultural events. Sankranti Traditional Day - Rangoli competition, Pre-Christmas, are the noted festivals that promote the national integrity and awareness of Indian National and Regional languages, as well as the culture associated with them.</p>
5. Focus on Outcome based education (OBE):	Program outcomes (PO), are the metrics that we utilize to measure the outcomes of our educational system. Outcome Based Education (OBE), CO (Course Objective) and PO (Program Object) attainments and in line with Blooms Taxonomy are started planning our teaching diaries. The JNTUA Anathapuramu designed the

	<p>course syllabus considering the theory and lab exercises with a focus on community engagement are included in the curriculum. Professional Ethics & Human Values is a value-based education course is being studied by B. Pharmacy and students during the course. Environmental Sciences is a course introduced at the I year level that looks at all areas of environmental sustainability.</p>
6. Distance education/online education:	<p>As the Pharmacy courses are lab and practical oriented, distance education is not suitable for Pharmaceutical Sciences courses. The Institution is smoothly conducting theory and practical, as per government and university norms. In accordance with the National Education Policy, the institution is designing a strategic plan to encourage stakeholders to participate in online education in theory and classes using NPTEL sponsored by AICTE.</p>
