## Policy document on green campus

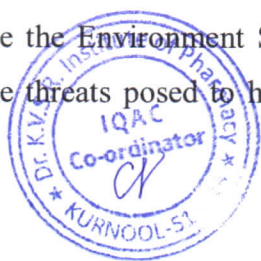

Dr. K. V. Subba Reddy Institute of Pharmacy is promoted by Vaibhav Educational Society (VES) with the motto of "Work is Worship". Its primary goal is to provide Quality Education for the Betterment of Society. It consistently seeks and implements innovative methods to improve the quality of higher education. The campus has a cosmopolitan vibe that draws students from all over Andhra Pradesh. Faculty members are constantly encouraged to conduct research, pursue higher education, and mentor students. Our major strength is our Memorandums of Understanding with various industries. Many of our students who work in various industries produce high-quality work and add value and esteem to their organisations. We continue our march forward with steady steps.

Dr. K. V. Subba Reddy offering programmes in, B.Pharmacy, pharmD and as well as Post Graduate course PHARMACEUTICS AND PHARMACEUTICAL ANALYSIS. The College is one of the top-ranking institutions and well-qualified and highly experienced faculty members. The college is well-equipped with excellent instructional facilities in all branches as well as other amenities. All the A-category seats have been filled since the year of inception.

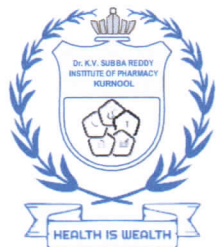

### OBJECTIVES OF THE STUDY

The green audit's primary goal is to promote environmental management and conservation on campus. The goal of the audit is to identify, quantify, describe, and prioritise the Environment Sustainability framework in accordance with applicable regulations, policies, and standards.

An institution's Green Audit is becoming increasingly important for self-assessment these days, as it reflects the institution's role in mitigating current environmental problems. The college has worked to keep the environment clean since its inception. However, there is no documentation of the auditing of the college's non-scholastic effort. As a result, the current green audit's goal is to identify, quantify, describe, and prioritise the Environment Sustainability framework in compliance. To secure the environment and cut down the threats posed to human health by analyzing the Pattern and extent of resource use on the campus.

## EXECUTIVE SUMMARY

Rapid urbanization and economic development on a local, regional, and global scale have resulted in a number of environmental and ecological crises. In light of this, it is critical that the institute implement the Green Campus system, which will lead to sustainable development.

The audit was conducted to ensure that the practices on campus are in accordance with the institution's Environmental Policy. The methodology includes the following steps: questionnaire preparation and completion, physical inspection of the campus, observation and review of documentation, key person interviews, data analysis, measurements, and recommendations.

## Plastic free campus policy

Plastics, as a hazardous element in society, pose a significant threat to the livelihood of mankind and other beings on the planet. Plastics are polluting the environment at an unprecedented rate, affecting all mediums. As a result, it is becoming a key responsibility of every citizen of our country not only to "Say No to Plastics," but also to raise community awareness in order to stop this pollution and leave behind a green and pollution-free environment for future generations.

Definitions:

Campus: Anywhere within the College's boundaries.

Any activity, meeting, conference, seminar, workshop, performance, speech, or gathering that takes place on campus is referred to as an event.

Single use: Any item that is intended to be used once and then discarded.

Single-use Plastic food service ware includes any single-use bags, straws, cups, containers, lids, cutlery, stirrers, or plates made of plastic. Compostable or biodegradable plastics (such as Oxo biodegradable or vegetable-based plastics) that meet these criteria are included in this definition.

**Single-use Plastic Bottles:** Any formed or moulded container made primarily of plastic resin and designed primarily as a single-use container containing any beverage intended for human consumption. Compostable or biodegradable plastic bottles that meet these criteria are included in this definition.

Scope:

The college has resolved to implement phase-wise ban of plastics in the following

## Phase :

- Ban on Single-use plastic packing materials in Canteen & stores.
- Identification & implementation of replacements for alternative food and beverages that are sold in canteen which comes in plastic packaging
- Ban on Single-use plastic bottles of 1 litre or less in volume for in-house meetings and events
- Reduction in usage of Single-use plastic banners
- Ban on use of plastic materials used for decorations at the events.

## Implementation and Compliance:

- ❖ NSS held a 'No Plastic' Awareness Campaign at DR. KVSP to educate students about the dangers of indiscriminate plastic use. In order to be environmentally conscious, the Institute instructs students to use plastic as little as possible.
- ❖ The college will deploy a team for the mission comprised of Faculty advisors who will ensure the planning and implementation of this Phase-wise Plastic ban on campus. They will closely monitor the ban's implementation and meet on a regular basis to assess and discuss the extent of the ban.
- ❖ They also plan the next phase of the ban's implementation.
- ❖ All departments on campus are responsible for organising or hosting events and activities on college grounds and for ensuring policy compliance.
- ❖ College administration is in charge of ensuring that the NSS conducted a 'No Plastic' Awareness Campaign at DR. that the necessary facilities and procedures are in place
